

LEED Building Certification Program

USGBC’s Leadership in Energy and Environmental Design (LEED) program is the most well-known green building standard in the industry. The LEED certification system is based on a diverse set of *prerequisites* and *credits* related to environmental impact and occupant health and wellness. Depending on the number of prerequisites and credits achieved, a building can be certified as LEED Silver, Gold or Platinum.

The following prerequisites and credits can be met using a living wall biofilter:

		Prerequisites	Credits
Energy and Atmosphere	Minimum Energy Performance	1	
	Optimize Energy Performance		20
Environmental Quality	Minimum Indoor Air Quality Performance	1	
	Enhanced Indoor Air Quality Strategies		2
	Indoor Air Quality Assessment		2
	Acoustic Performance		2
	Integrated Pest Management		2
Innovation	Innovation		5
