

# WELL Building Certification Program

The WELL standard is a new international building standard which focuses solely on the health and wellness of building occupants. Similar to LEED, the WELL standard is organized into 41 *preconditions* and 59 *optimizations* that can be used to achieve Silver, Gold or Platinum certification. Each precondition and optimization is met by meeting specific guidelines which are based on scientific, practitioner and medical reviews.

The following preconditions and optimizations can be met using a living wall biofilter:

		Precondition	Optimization
Air	Air Quality Standards	✓	
	Ventilation Effectiveness	✓	
	VOC Reduction	✓	
	Advanced Air Purification		✓
Comfort	Reverberation Time		✓
	Sound Masking		✓
	Sound Reducing Surfaces		✓
	Sound Barriers		✓
Mind	Biophilia – Qualitative	✓	
	Biophilia - Quantitative		✓
Innovation	Innovation		✓
